From the Vision until Execution...

Since the company was founded in 1985 in the technology park of the University Heidelberg in Germany, Erich Hunger's focus was on innovative products. The products should be reliable, powerful and easy to use. Because of his enthusiasm for technology and never-ending motivation, IML makes the work easier for its customers since 35 years.

With their wide range of products, IML shows what is possible through technical precision and sustainable business. Products for Wood Inspection, Dental industry and precision parts are manufactured with innovative spirit and uncompromising quality. The clear added value for every customer is the basis for the company's success.

Because of the increasing demand in the US and the challenge of supporting the customers overseas optimally, the logical consequence was to found another IML Branch in Georgia (1997).

Improved service, short delivery times and direct contact person on site - IML remains his promise of quality to their customers.

Since 2013, IML serves the ever-growing customer base from New Hampshire. With IML Australia another IML branch was established overseas.

Erich Hunger relies on reliability and consistent quality - His sons Sebastian and Fabian will ensure that the company will remain over the next decades.

They reveal what
no one sees:
IML's measurement
and test instruments
deliver reliable infor-
mation on potential
internal damage that
cannot be detected
from the outside.

For Trees and Construction Wood: Trust is Good, Control is IML

Trees, wooden poles, playground equipment and houses - only the examination of the inside gives safety about the actual state of the object. The drilling resistance measuring devices from IML show easily what cannot be recognized from the outside - possible internal damage.

Through the unique combination of wood- and technical competence, the measurement results are not only reliable but also scientifically recognized.

Large telecommunication companies, energy suppliers and traffic companies rely on IML since decades. Also countless tree- and playground experts or engineers trust IML because they don't want to miss the RESI.

IML-RESI MD300

Lightweight hand drill, fast and easy to use

IML-RESI MD300

Lightweight hand drill, fast and easy to use

IML-RESI MD300

The IML-RESI MD300 is a purely mechanical drill that does not record an electronic or mechanical measurement curve. The user 'feels' the result and can read the penetration depth on the 300 mm scale. Often an abrupt and fast penetration is perceptible when the instrument detects a rot zone. Even conifer year rings can be felt.

- Cordless drill as drive unit
- Sturdy stainless steel housing
- Easy to read 1:1 depth scale
- Diameter of the drilling needle:
 - Needle tip: Ø 3,0 mm
 - Needle shaft: Ø 1,5 mm
- Available drilling depth 300 mm
- Drill spindle for external drill: Ø 12 mm

Scope of Delivery (Standard):

- MD300 drill attachment (depth 300 mm)
- 2 x drilling needle (Length 387 mm)
- Chuck key (hexagon socket 2,5 mm)
- Instructions manual

IML-RESI MD300

Drilling depth scale 1:1

IML-RESI MD300
without drill (only MD300)

Item No. 4000150

735,00 €

IML-RESI MD300
with Bosch drill GSR 18V Li-Ion Professional
- incl. 220V Li-Ion 18V battery charger + 2x Premium Li-Ion batteries 18V 5,0 Ah

Item No. 4000152

1.230,00 €

Optional Accessories

IML-RESI MD300

Drilling Needles IML-RESI MD300 (10 Pieces per Pack)
Length 387 mm

Item No. 3100317

143,00 €

Ouiver for MD300 Drilling Needles
For safe storage of approximately 50 drilling needles

Item No. 3103016

33,00 €

System Transport Case
incl. foam inlay and key

Item No. 3100313

259,00 €

Fast Charger 220V
for 18V Li-Ion Premium Batteries

Item No. 30009934

182,50 €

IML-RESI PowerDrill®

Uncompromisingly precision for all applications

IML-RESI PowerDrill®

Uncompromisingly precision for all applications

IML-RESI PD-Series

The IML-RESI Power Drill® can be used anywhere where reliable and meaningful test results are required.

- Comfortable with clear display
- Easy, fast and digital recording of the measurement data
- Fatigue-free operation due to the ergonomic design and low overall weight
- High drilling performance with minimal energy consumption
- Rugged and splashproof aluminium housing
- Simultaneous recording of drilling resistance and feed cam for better decay detection
- Automatic curve evaluation for wooden poles

Scope of Delivery (Standard):

- Measuring instrument PD with a mounted drilling needle
- Handle
- 25 m standard memory
- Quiver with 10 drilling needles
- 220V battery charger Li-Ion 18V
- 2x premium 18V Li-Ion batteries
- Mini-USB 2.0 data transfer cable
- Drill chuck with tools
- Pliers
- System transport case
- IML Software Center PD-Tools (incl. 3 installation licences)
- Instructions manual

IML-RESI PD400

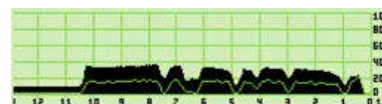

Integrated 45° adapter

IML-RESI PD200 Drilling depth 200 mm	Item No. 3100900-2PD	5.675,00 €
IML-RESI PD300 Drilling depth 300 mm	Item No. 3100900-3PD	5.795,00 €
IML-RESI PD400 Drilling depth 400 mm	Item No. 3100900-4PD	6.130,00 €
IML-RESI PD500 Drilling depth 500 mm	Item No. 3100900-5PD	6.345,00 €
IML-RESI PD600 Drilling depth 600 mm	Item No. 3100900-6PD	6.560,00 €
IML-RESI PD750 Drilling depth 750 mm	Item No. 3100900-7PD	7.115,00 €
IML-RESI PD1000 Drilling depth 1000 mm	Item No. 3100900-8PD	8.200,00 €

Optional Add-Ons

IML-RESI PD-Series

FEED Measurement

Additional recording of the feed curve (compressive force) next to the drilling curve (torsional force). In some cases the feed curve contains a significantly reduced curve or no shaft friction at all acting on the drilling needle. This means that it is considerably easier to detect the difference between healthy and damaged wood. In addition, it is easier to diagnose rot on the feed curve at an early stage.

FEED Measurement

Item No. 4100017

342,00 €

TLT Tilt Sensor

Tilt angle display and storage. Optional tilt compensation in the drilling depth preselection.

TLT Tilt Sensor

Item No. 4100018

190,00 €

SCL Scaling Package

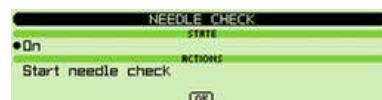

Scaling of the drilling depth on a scale of 1:1, magnification, and overall view (full drilling depth on display width). Scaling of the amplitude to a fixed factor of 1.0 / 1.5 / 2.0 / 2.5 / 3.0 or automatic scaling.

SCL Scaling Package

Item No. 4100019

190,00 €

NC Needle Check

Automatic check of needle tip for breakage and wear before every measurement. Different wear tolerances can be selected when ordering. The status of the needle ('ok' / 'worn') is stored with each measurement..

NC Needle Check

Item No. 4100015

585,00 €

MEM Memory Enlargement

Memory Enlargement MEM1*

50 metres recording length of the measurement curves

Item No. 4100008

110,00 €

Memory Enlargement MEM2*

100 metres recording length of the measurement curves

Item No. 4100009

215,00 €

Memory Enlargement MEM3*

180 metres recording length of the measurement curves

Item No. 4100010

355,00 €

* If you have installed the feed module, the specified memory length is halved due to the additional measurement graph

IML Software & Optional Add-Ons

IML-RESI PD-Series

IML Software Center PD-Tools **PRO**

Extended evaluation software

Functions PD-Tools Standard:

- Configuration
- Transfer
- Analysis
- Magnification
- Print-out and saving

Additional functions PRO version:

- Export of several measurements
- Averaging
- Multi-printing
- Cavity detector
- Tree-ring analysis
- Live display during drilling on a PC or handheld device

IML Software Center PD-Tools PRO
incl. 3 installation licences

Item No. 3100808 **670,00 €**

Each additional license

Item No. 3100890 **165,00 €**

WoodInspector incl. PD-Tools **PRO**

The IML WoodInspector is an additional module for the PD-Tools PRO software package. An automatic assessment of wooden poles is performed by the IML WoodInspector. Its features are: graphic and numerical cavity detection, detection of decay and incipient decay, evaluation of the data feed, automatic diameter detection for automatic withdrawal of the drilling needle after exiting below a particular drilling angle, displaying the drilling result immediately after drilling, individual user adjustment.

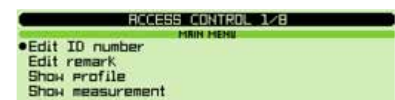

IML WoodInspector incl. PD-Tools PRO

Item No. 3100814 **1.110,00 €**

IML WoodInspector Complete Package
incl. IML WoodInspector, FEED, TLT, SCL and ACS

Item No. 3100815 **1.700,00 €**

ACS Access Control

Locks of almost all functions and settings with a password prompt. Avoids an unintentional change of device settings.

ACS Access Control

Item No. 4100020 **105,00 €**

RCI API (application programming interface)

Interface for configuration, control and data transfer to customer software (not using PD-Tools/PD-Tools PRO). The data may be processed further directly by the customer software.

RCI API

Item No. 3100807 **1.135,00 €**

Optional Accessories

IML-RESI PD-Series

Shoulder Strap

Shoulder strap with 2 snap hooks and 2 sturdy eyelets on the instrument

Shoulder Strap	Item No. 30009903	54,50 €
Ring Eyelets for Shoulder Strap	Item No. 4100036	10,00 €

Transport Bag

Transport bag with belt for IML-RESI PD instrument with practical side pockets for batteries, pliers and quiver

Transport Bag for IML-RESI PD300 / PD400	Item No. 4100047	190,00 €
Transport Bag for IML-RESI PD500	Item No. 4100053	163,00 €

Screenprotector

For display protection

Screenprotector	Art.-Nr. 4100058	48,00 €
-----------------	------------------	---------

Cleaning Tool

Tool for cleaning the front adapter

Cleaning Tool with Brush	Item No. 4100056	24,90 €
--------------------------	------------------	---------

Front Adapter

Extension attachment for the PD

Front Adapter 25 mm	Item No. 3100932-25	115,00 €
Front Adapter 45 mm	Item No. 3100932-45	115,00 €
Front Adapter 60 mm	Item No. 3100932-60	115,00 €

Tree Labels numbering set for drilling holes

Within this set of 18 tree markers, you will find 8 pieces marked with cardinal directions and 10 pieces numbered from 1 to 10.

Tree Labels numbering set for drilling holes	Item No. 4000173	17,50 €
--	------------------	---------

Optional Accessories

IML-RESI PD-Series

Bluetooth Printer 2.0

On-site print-out of measurements on a 1:1 scale on thermal paper stripes

Bluetooth Printer
incl. 10 thermal-paper rolls

Item No. 4100114 **680,00 €**

Quiver for Drilling Needles

For safe storage of approximately 50 drilling needles

IML-RESI PD200 / PD300 / PD400

Item No. 3104017 **33,00 €**

IML-RESI PD500

Item No. 3105020 **33,00 €**

IML-RESI PD600

Item No. 3105017 **33,00 €**

IML-RESI PD750

Item No. 3105018 **33,00 €**

IML-RESI PD1000

Item No. 3105019 **33,00 €**

System Transport Case

Stable system transport case with foam insert and key

IML-RESI PD200 / PD300

Item No. 3100413 **270,00 €**

IML-RESI PD400

Item No. 3100711 **280,00 €**

IML-RESI PD500

Item No. 3100811 **300,00 €**

IML-RESI PD600

Item No. 3100812 **310,00 €**

IML-RESI PD750

Item No. 3100911 **310,00 €**

IML-RESI PD1000

Item No. 3100912 **335,00 €**

Premium Battery

Spare battery

Premium Battery 18V Li-Ion

Item No. 30009999 **125,00 €**

Fast Charger for Premium Batteries with Li-Ion Technology 110V - 220V

Only for premium 18V batteries with Li-Ion technology in the MD, F and PD series

Fast Charger 220V for 18V Li-Ion Premium Batteries

Item No. 30009932 **182,50 €**

Fast Charger 110V with US Plug for 18V Li-Ion Premium Batteries

Item No. 30009934 **200,00 €**

Disposables

IML-RESI PD-Series – Drilling needles with a special and improved surface coating

Standard Drilling Needles ,Click'

For tree & construction wood inspection (10 pieces per pack)

Easy and efficient:
You can attend our
seminars online, from
your office or home
office.

Our seminars support you to become a RESI Professional!

With our seminars you benefit from our extensive knowledge from more than 35 years of experience in the field of wood testing and drilling resistance measurement.

No matter if you are beginner, advanced or professional user - we offer seminars for every user for tree-, wooden pole- or construction wood inspections.

IML-RESI F-Series

Compact and flexible use

IML-RESI F-Series

Compact and flexible use

IML-RESI F-Series

The IML-RESI F-Series can be used anywhere where reliable and meaningful test results are required.

- Cordless drill as a drive unit
- On-site documentation of measurement results
- Recording of the measurement curve on weather-proof wax paper strips
- Low weight ensures efficient operation even in difficult operational areas
- Splash-proof stainless steel housing with plexiglass cover to protect the measurement record
- Measurements below 45° using snap-on adapter for drills with construction wood configuration

The IML-RESI F-Series is Available in Two Versions for Different Applications:

- Tree inspection
- Construction wood

Further Two Enhanced Versions can be Ordered:

- **S-Version:** Particularly stable design of the needle support for frequent use in hardwoods
- **SX-Version:** Improved needle guidance using the exchangeable telescope

Scope of Delivery (Tree Inspection):

- F-Series measurement device with mounted drilling needle
- Bosch drill GSR 18V Li-Ion Professional with adapter ring
- 220V Charger Li-Ion 18V and 2x 18V Li-Ion 5,0 Ah batteries
- Shoulder strap
- 10x drilling needles
- 400x wax paper strips
- Paper cassette
- Tool for maintenance ,Tool Kit'
- System transport case
- Instructions manual

IML-RESI F300SX

Scope of Delivery (Construction Wood):

- F-Series measurement device with mounted drilling needle for 45° Adapter
- Bosch drill GSR 18V Li-Ion Professional with adapter ring
- 220V Charger Li-Ion 18V and 2x 18V Li-Ion 5,0 Ah batteries
- Shoulder strap
- 45° Adapter
- 10x drilling needles for 45° Adapter
- 400x wax paper strips
- Paper cassette
- Tool for maintenance ,Tool Kit'
- System transport case
- Instructions manual

Our seminars support you to become a RESI Professional!

With our seminars you benefit from our extensive knowledge from more than 35 years of experience in the field of wood testing and drilling resistance measurement.

No matter if you are beginner, advanced or professional user - we offer seminars for every user for tree-, wooden pole- or construction wood inspections.

IML Fractometer I

Bending strength measurement

IML Fractometer I

The IML Fractometer I measures the bending strength of a previously removed wood core sample. The measuring range extends over 150FU (fractometer units). Different bending forces are adjustable by means of an adjustment wheel.

Scope of Delivery:

- Fractometer I
- Leather pouch
- Instructions manual

IML Fractometer I

Item No. 4000100

895,00 €

IML Fractometer II

Bending and compression strength measurement

IML Fractometer II Complete Set

The IML Fractometer II measures the bending and compression strength of a previously removed wood core sample.

Scope of Delivery:

- Fractometer II, cutting knife, tweezers, cutting board, test pin, instructions manual
- Jim-Gem increment borer (drilling depth 400 mm) with instructions manual
- Extension and pull-off loops for the taking core samples
- IML probing rod with extension (length 900 mm)
- Maintenance kit with 6 x wooden supporting battens, 1x glue can, 1x oil can, 1x ejector for cores, 1x grindstone for interior of drill, 1x grindstone for exterior of drill, 1x cleaning brush with extension and 2x spare bolts for increment borer
- Aluminium transport case with foam insert and key

„Jim-Gem‘ Increment Borer

Extraction of core samples

Increment Borer „Jim-Gem‘

„Jim-Gem‘ increment borers are used for taking core samples and thus checking the quality of the wood and measuring the growth rate of trees. The increment borers are manufactured from special steel and Teflon coated to prevent friction heat (important for inspecting standing / sap conducting trees).

- Drilling depth: 400 mm
- Cutting edge: 3-helical
- Core diameter: 5,0 mm

Scope of Delivery:

- Increment borer with shank, drill and needle
- Instructions manual

Increment Borer „Jim-Gem‘
Drilling depth 400 mm

IML Micro Hammer

Sound velocity measurement

IML Micro Hammer

The IML Micro Hammer is a preliminary inspection device for living trees. A hammer will generate a pulse that is detected and measured by microsensors.

Application Areas:

- Tree care and inspection to maintain safe parks, roadways and forests
- Assessment of tree damages

Scope of Delivery:

- Electronic unit in a shock-resistant, water-proof housing
 - Hammer (pulse generator) and microsensor (pulse receiver)
 - 10x stainless steel fixing screws
 - 4x magnets for sensor mounting
 - Charger 110V - 240V
 - Bosch Mini Cordless Screwdriver IXO 3,6V with charger and manual
 - Aluminium transport case
 - Instructions manual
 - IML Software Center M-Tools
- Functions: Configuration and readout of the electronic unit, transmission, evaluation and storage of measurement data on a PC or handheld device
- 1x Magnetic impact cap
 - 1x Bit Torx 15 (to fasten/loosen the screws)

IML Micro Hammer
with 1 microsensor

Item No. 41002004 **3.155,00 €**

Service and Calibration

Annual service inspection

Service and Calibration of IML Products

In order to guarantee the measuring accuracy of IML products, regular maintenance and calibration of measuring instruments should be carried out by our qualified service team. The inspection of measuring instruments should be carried out at yearly intervals.

Service and Calibration

An Inspection Includes:

- Complete function and safety test
- The unit is disassembled, the functional parts precisely controlled and checked
- All mechanical moving parts are cleaned and permanently lubricated with special LongLife oil
- Implementation of test measurements and final calibration
- Creation of a detailed service report and a calibration sheet / test report

IML Tree Labels

Aluminium tree labels

IML Tree Labels made of anodized Aluminium

The aluminium plates labelled using laser technology according to your requirements are very easy to read. The anodized coating ensures a long service life and durability. The IML Tree Labels are available in different colours. The Tree Labels are made from scratch-resistant and weatherproof (AlMg1) aluminium, the white laser lettering means they are easy to read in the sunlight. The tree tags can be individually laser-labelled to your specifications.

Item No. 4000170

IML Tree Labels in available colors

Label:

- Continuously numbered and optionally with additional text
- Logo or symbol
- QR-Code
- Number ranges or Excel list

Dimensions:

- Diameter: 35 mm

IML Measuring Table

Annual ring analysis

IML Measuring Table

The IML Measuring Table is used for studying the growth rate of wood samples. An easy-to-use electronic unit helps do the evaluation, as well as an optional microscope for analysis of very low growth rates.

Scope of Delivery:

- Measuring table
- Electronic unit with serial data transfer cable and charger 110V-240V
- 2x recording strips for cores (wood support strips)
- Instructions manual
- IML Software Center T-Tools PRO
Functions: Configuration and readout of electronic unit, transfer, evaluation, storage, magnification and printing of measurement data on a PC or laptop

IML Measuring Table

IML Measuring Table with Leica Microscope

The IML Measuring Table can be optionally extended with 2 microscopes, an analogue and a digital version

Leica S9E L2 Zoom Stereo Microscope:
incl. mounting on IML measuring table

- Viewing angle: 35°
- Lens: 0,63x, achromatic
- Magnification: max. 55x zoom
- Max. resolution: 500 LP/mm
- Max. aperture: 0144 nA
- Field of view / distance: 36,5 mm / 55 mm

IML Measuring Table
without microscope

Item No. 5000200 **3.615,00 €**

Stainless Steel Model / VTA-Pebble Hammer

Multi-purpose tool by Prof. Dr. Claus Mattheck and Dr. Klaus Bethge

Stainless Steel Model for Tree Diagnosis

The stainless steel model is a multi-purpose tool for tree diagnosis. This tool measures the slenderness of tree trunks and branches. It may also be a non-dogmatic guide for shaping the crown of a tree according to the shape of brook pebbles. The model can show the highly loaded space under the tree determined with the force core method.

Terms and Conditions of Delivery and Payment

IML Instrumenta Mechanik Labor System GmbH

A. General Terms and Conditions (as of January 2019)

§1 Scope

(1) These General Terms and Conditions (hereinafter «GTC») apply to all orders placed by a consumer over the age of 18 or an entrepreneur (hereinafter both referred to as «customer») in the online shop of the «seller» (see § 2) regarding the goods and/or services offered there. They also apply to all contracts concluded on the basis of an enquiry submitted by a customer via the enquiry form or by email or using other telecommunications technology for precision parts.

(2) A consumer is any buyer who concludes the contract for a purpose which is predominantly neither attributable to his commercial nor his independent professional activity (§ 13 BGB - Civil Code).

(3) An entrepreneur is any buyer who concludes the contract as a natural or legal person or as a partnership with legal capacity, for a purpose that is attributable to the exercise of his commercial or self-employed professional activity (§ 14 BGB).

(4) The inclusion of the customers own conditions (in particular, conditions of purchase) is expressly contradicted, unless otherwise agreed upon in writing.

(5) The deliveries and services offered by the seller are provided exclusively on the basis of these GTC. The GTC, therefore, apply to entrepreneurs within the meaning of § 1 para. 1 also for all future business relations, even if they have not been expressly agreed upon again.

(6) The currently valid GTC can be called up and printed out at any time on the website of the seller.

§2 Conclusion of the Contract

(1) The contract for all goods and/or services advertised in the online shop comes into effect with:

IML Instrumenta Mechanik Labor System GmbH, Parkstraße 33, 69168 Wiesloch, Tel.: 06222-67970, Email: info@iml.de, Managing Directors: Erich Hunger, Sebastian Hunger, Register court: District Court Mannheim, Registration number: HRB 701885, Sales tax identification number according to § 27 a Value Added Tax Act: DE 254022201

(2) In the case of a contract for precision parts, which is concluded on the basis of an enquiry by the customer, the seller is:

IML Instrumenta Mechanik Labor Produktion GmbH, Parkstraße 33, 69168 Wiesloch, Tel.: 06222-67970, Email: info@iml.de, Managing Directors: Erich Hunger, Sebastian Hunger, Register court: District court Mannheim, registration number: HRB 701829, Value added tax identification number according to § 27 a Value Added Tax Act: DE 253689884

(3) The essential characteristics of the goods or services are those found in the respective product description provided by the seller.

(4) All offers in the online shop of the seller represent only a non-binding invitation to the customer to submit a corresponding purchase offer to the seller and not an offer of the seller within the meaning of § 145 BGB.

(5) Customers can submit the offer by using the online order form, which is in the seller's online shop. In this case, after entering the personal data and clicking on «Send order» in the final step of the ordering process, the customer places a binding order of the products in his/her shopping cart. The submission of the offer by the customer is only possible after the customer has received the General Terms and Conditions for his information and has included them in his offer by clicking on the «Accept General Terms and Conditions» button.

(6) The seller may accept the customers offer within 2 (two) days by:

1. Sending an order confirmation to the customer in writing or in text form (email or fax).
2. Delivering the ordered goods to the customer.
3. Asking the customer to pay after placing the order.

With regard to the seller's period of acceptance, the receipt of the confirmation, the delivery of the ordered goods or the request for payment by the customer shall be decisive in each case. If several of the above-mentioned alternatives apply, the agreement becomes binding at the time the first alternative occurs. If the seller fails to accept the offer of the customer within the aforementioned period, this will be considered a rejection of the offer which means that the customer is no longer bound by the offer.

(7) Any confirmations of receipt or receipt sent automatically or manually after submission of the offer shall not be considered as acceptance of the offer by the seller, but are for information purposes only. A contract is therefore not concluded through them.

(8) If the last day of the period is a Saturday, a Sunday or a public holiday at the seller's registered office, then such day shall be replaced by the next working day.

(9) Since most of the correspondence and order processing takes place via email, the customer must ensure that the email address provided by him is correct and emails can be received.

(10) Enquiries about precision parts by the customer do not constitute offers. An offer only enters into force after the seller replies. The customer can accept this offer within a reasonable period of time. § 2 VII shall apply accordingly.

§ 3 Right of Revocation

(1) The customer bears the direct costs for the return of the goods(s) according to § 357 VI BGB (right of revocation).

(2) For other instructions on the right of withdrawal, which is part of these GTC, see the website of the seller.

§ 4. Price

(1) The prices quoted by the seller in the online shop are net prices. The sales tax is shown separately as soon as the product is placed in the shopping basket. Delivery and shipping costs are indicated separately in the respective product description and can be added by the customer to the price calculation of the shopping basket with the help of a computer.

(2) For deliveries to countries outside the European Union, additional costs may incur in individual cases, for which the seller is not responsible, and these are to be borne by the customer. This includes, for example, costs for transferring money through credit institutions (e.g. bank charges, exchange fees) or legal import duties or taxes (e.g. customs duties).

§5 Payment Terms and Default

(1) The customer has various payment options at his disposal. These are: Prepayment - payment by credit card - payment on invoice - PayPal

(2) For orders that are not placed from the territory of the Federal Republic of Germany, there is only the option of prepayment or by credit card.

(3) The seller reserves the right only to accept certain payment methods for individual products. These are derived from the payment methods listed under «Select payment method».

(4) If prepayment has been agreed upon, payment is due immediately after conclusion of the contract. It must be made in full to the seller's account within 14 (fourteen) days at the latest.

(5) By choosing the payment method delivery against invoice, the purchase price will be due after the goods have been delivered and invoiced. In this case, the purchase price is to be paid either (a) within 8 (eight) days after receipt of the invoice with 2% discount or (b) within 20 (twenty) days after receipt of the invoice without deduction. This will be valid unless otherwise agreed upon. The seller reserves the right of a check of creditworthiness when selecting the payment method delivery on invoice and to refuse this payment method in case of a negative outcome after checking creditworthiness.

(6) If the customer is a consumer and is in default with a payment, he is obliged to pay additional statutory default interest in the amount of 5 percentage points above the base interest rate (§ 288 I BGB).

(7) If the customer is an entrepreneur and is in default with a payment, he is obliged to pay the additional statutory default interest of 9 percentage points above the base interest rate (§ 288 II BGB).

§ 6 Delivery and Shipping Conditions

(1) The delivery of goods is made to the delivery address provided by the customer. The order will be processed based on the address provided during the checkout process. Alternatively, if customers pay via PayPal, the delivery address set up with PayPal will be used.

(5) If the transport company sends the goods back to the seller because delivery to the customer was not possible, the customer shall bear the cost of the failed delivery. This does not apply:

- If the customer exercises his right of revocation upon delivery,
- if he is not responsible for the fact that delivery was impossible or
- if he was temporarily prevented from accepting the service offered, unless the seller had notified him of the service a reasonable time in advance.

(3) The risk of accidental loss and accidental deterioration of the sold goods shall pass to the customer upon handing over of the goods to the customer or to an authorised recipient.

(4) If the customer is an entrepreneur, the risk of accidental loss and accidental deterioration in case of sales shipment passes on to the respective forwarder with handing over the goods at the main office of the seller. Likewise, the risk of accidental loss and accidental deterioration shall pass to the customer acting as entrepreneur if dispatch is delayed at his request. The time of transfer of risk shall then be deemed to be the time from which the seller has reported the readiness for delivery.

(5) The seller reserves the right to withdraw from the contract in the case of incorrect or improper self-supply. This applies only when the seller is not responsible for the failed delivery and has completed a concrete cover transaction with the supplier with due diligence. The seller shall take all reasonable measures to procure the goods. In case of non-availability or only partial availability of the goods, the customer will be notified immediately, and any consideration shall be refunded straight away.

(6) For logistical reasons, deliveries may not be collected by the customer.

§ 7 Reservation of Ownership

- (1) The seller retains ownership to the delivered item until full payment of all claims arising from the purchase contract.
- (2) As long as ownership has not yet passed over, the customer is obliged to treat the object of purchase with care.
- (3) If the customer is an entrepreneur within the meaning of § 1 III of these GTC, he is entitled to resell the reserved goods during the normal course of business. The customer assigns the claims against the purchaser from the resale of the reserved goods to the purchaser up to the amount of the purchase price agreed upon with the seller (including value added tax). The customer remains entitled to collect the receivables even after this assignment. The seller will not collect the claim from the resale of the purchased item as long as the customer does not meet his payment obligations and, in particular, as long as no application for the opening of insolvency proceedings has been filed or payments have not been suspended.

§ 8 Defects Liability and Warranty

- (1) The statutory liability for defects (§§ 433 ff. BGB) shall apply in principle.
- (2) If the customer acts as an entrepreneur, the statutory provisions shall apply with the following modifications:
 - Only the seller's information and the manufacturer's descriptions are binding for the desired quality of the goods or service. Public promotions or advertising are expressly excluded.
 - The customer is obliged to examine the goods immediately after receipt with the necessary care for possible errors or defects and to notify the seller of obvious defects within 7 (seven) days after receiving the goods. Timely dispatch is sufficient for meeting the deadline. This also applies to subsequently discovered defects hidden after being discovered. The assertion of warranty claims is excluded in the case of infringement of duty to examine and to notify about defects (§ 377 HGB - Commercial Code).
 - If the goods are repaired, the seller does not have to bear the increased costs incurred by the goods being taken to a place other than the place of fulfillment, unless the goods are used as intended.
 - The warranty period is one year following receipt of the goods. This does not apply in cases of injury to life, body or health, in the event of intentional or grossly negligent breach of duty by the purchaser and in the event of fraudulent concealment of a defect.

§ 9 Liability

- (1) The seller is only liable for damages incurred if they are due to a breach of a substantial contractual obligation or to intentional or grossly negligent conduct on the part of the seller, his legal representatives or vicarious agents.
- (2) If an essential contractual obligation is slightly negligently violated, the liability of the seller is limited to the foreseeable damage typical for the contract. An essential contractual obligation is performed for commitments whose fulfilment makes the proper execution of the contract possible or on whose observance the customer has relied or was entitled to rely.
- (3) Any further liability for damages is excluded. Liability for culpable injury to life, body or health in accordance with the statutory provisions remains unaffected. This also applies to mandatory liability under the Product Liability Act.

§ 10 Concluding Provisions

- (1) The law of the Federal Republic of Germany applies to all legal relations between the buyer and the seller excluding all conflict-of-law provisions and international contracts (in particular, CISG). For consumers, this choice of law shall apply only insofar as the protection provided is revoked by mandatory provisions of the law of the state in which the consumer has his habitual residence.
- (2) If the customer is a merchant, a legal entity under public law or special public fund, the exclusive jurisdiction for any disputes arising under this contract shall be the registered office of the seller. The same applies to customers who have their registered office outside the territory of the Federal Republic of Germany if the contract or claims arising from the contract can be attributed to the professional or commercial activity of the customer. However, in the above cases, the seller is entitled to bring the matter before the court holding jurisdiction over the customer's registered office.
- (3) The language of the contract is German.
- (4) These GTC are also available in German. The English translation is for information purposes only and is not legally binding. In the event of discrepancies between the German and English versions, the German version shall apply.

B. Customer Information

§ 1 Information Regarding the Identity of the Seller

IML Instrumenta Mechanik Labor System GmbH,
Parkstraße 33, 69168 Wiesloch, Tel.: 06222-67970,
Email: info@iml.de,
Managing Directors: Erich Hunger, Sebastian Hunger,
Register court: District Court Mannheim, registration number:
HRB 701885, VAT ID number pursuant to § 27 a of the Value Added Tax
Act: DE 254022201

and

IML Instrumenta Mechanik Labor Produktion GmbH,
Parkstraße 33, 69168 Wiesloch, Tel.: 06222-67970, Email: info@iml.de,
Managing Directors: Erich Hunger, Sebastian Hunger, Register court: District Court Mannheim, registration number: HRB 701829, VAT ID number pursuant to § 27 a of the Value Added Tax Act: DE 253689884,

§ 2 Information Regarding the Conclusion of the Contract

The conclusion of the contract is in accordance with § 2, conclusion of the general terms and conditions of the seller (see above).

§ 3 Information Regarding Payment and Delivery

Payment shall be made in accordance with § 5 Payment terms and default, delivery in accordance with § 6 Delivery and shipping conditions of the seller's General Terms and Conditions (see above).

§ 4 Information about the Technical Steps Leading to the Conclusion of the Contract

(1) The customer has to go through the following technical steps for the submission of his offer via the online order form of the seller:

1. Placing the product in the shopping cart
2. Entering the billing and shipping addresses
3. Selecting the desired shipping method
4. Selecting the desired payment method
5. Summary of the order data
6. Sending the order

(2) Acceptance by the seller shall be in accordance with §§ 2 VI ff. of the General Terms and Conditions of the Seller (see above).

(3) When submitting an enquiry regarding precision parts via the online form or by email or other telecommunication technology, the contract is concluded in accordance with § 2 X of the General Terms and Conditions of the seller (see above).

§ 5 Information Regarding the Storage of the Contract

The contract text will be saved by the seller and sent to the customer after submitting his order, together with the given General Terms and Conditions and customer information in text form (e.g. as a letter, email). However, the contract text may no longer be accessible to customers on the seller's website once the order has been shipped.

§ 6 Information about the Technical Means to Identify and Correct the Input Errors

Before a binding order is submitted, customers can correct their entries using the standard keyboard and mouse functions. In addition, all entries will be displayed once again in a «Review order» screen so that the customer may correct them using standard keyboard and mouse functions before submission.

§ 7 Information on the Language Available for Concluding the Contract.

Both the English and German languages are available for concluding the contract. Unless otherwise agreed upon, the language of the contract shall be the language in which the customer's offer is made.
